Make your appointment with a price that is affordable for you. Perform a consistent backup of all your Outlook data in order to safe-guard your information so that it will not be lost in case of hardware failure or accidental deletion. The main advantages of this software include convenient backups with a Windows utility and easy access to the data. What is new in this release: Version 5.0.0.0.5 of ABF Outlook Backup includes improvements that make it better and more useful. Fast small batches backup. Don't have to depend on schedule. Automatically backup all Outlook data. What is new in version 5.0.0.0.5: Major usability improvements. Fix certain errors. Overall a very nice software. Good job! The best thing about this software is that it remembers each and every backup setting as a default and it doesn't take any time for you to tell it to create a backup. You may try to use IMAP. But I would recommend to pay more attention on this software because it is far more better than IMAP and also it saves your data on network drive. In order to do so, you have to purchase more than one license as well. I had no problems with this software which makes me believe that it was truly a good product. You may download this software from the link given below. What is new in version 5.0.0.0.4: This is a critical update that eliminates certain memory problems and therefore enhances the overall performance of the software. This is not really a review of the software per se, but rather an overview of what I liked about it and what I did not like about it. What I liked about ABF Outlook Backup? - First, the software is very easy to use. - Second, it does an excellent job of backing up Outlook data. - Third, the software keeps track of all the settings that were saved in the past. It remembers them as default settings,
