System Requirements For Adobe Photoshop 2021 (Version 22.5.1):

Rivals of Aether's minimum requirements have increased from the original release in early 2016. While initially we targeted the most common computers being used today, it has been made clear that while we can make it work, running at a lower resolution and on lower spec hardware, is not the best experience. To provide the best experience possible, we've also been working on ways to deliver a smoother experience in the following ways: The game is now designed to run at 60 FPS rather than 30. Our framerates have improved significantly. At
