Features the best in ambience from super bass to room ambience. Embertone.Sensual.Sax This flute will rock your world with an expressive and velvety low end, and a crisp and defined high register. With full vibrato and dynamic control, you can . Embertone.jubal.flute Features the best in ambience from super bass to room ambience. The Ambertones have returned with their second album of new grooves, moods and tracks. From the shimmering reverb of "Instant Love" to the dark ambient vibe of "Make Me Wonder", "The Ambertones Second Album" is a loveable double album. The Ambertones are a duo based in Brussels and London, who perform an upbeat brand of music that fuses the traditional with the avant-garde. Their debut album, "Two Roads", was released in 2011 by . Embertone presents the new album of the legendary band WU LYF. "Fagots" is the new album of the legendary band WU LYF. Released in 2015 on the important label "NUOVO RECORD", an album of great originality in which the musicians use the usual means of sound, surpassing the limitation in the sound of the human voice, but is enriched by the most innovative electronic music production. The album "Fagots", which marks the return of the band, has 4 tracks composed by the band members and, therefore, it consists of 7 tracks. The sound is dynamic, the meter is always changing and the instruments are perfectly inserted, going from a catchy groove with a "Bim Bam Boom" to the kind of noise that shakes the walls. From the first second, we are a master, a maniac and a delinquent, then with the song "Fagots", we are also a "macho" and dance. "Fagots" is a track from the English label "NUOVO RECORD" and was released in March 2015. Embertone presents the new album of the legendary band WU LYF.
