Ultimate Dump Trojans is an easy-to-use, yet very powerful application designed to assist in the detection, analysis, and removal of malware that may reside on a system. These viruses reside on a local disk and may have corrupted data, they may try to communicate with a remote server, or they may have attempted to attack other systems on the network. These emails are disguised as a valid media such as an image, text or document file. They create an infection while the unsuspecting user runs the file or opens the attached email. Ultimate Dump detects and removes these malware infections on a local disk or a removable disk
