Visual LISP Visual LISP is an enhanced version of AutoLISP. It was introduced for AutoCAD LT and was available for Autodesk Design Review. C++ C++ is a fully object-oriented programming language. It is strongly recommended for extension plugins. Visual Basic Visual Basic is a Microsoft's programming language for generating Windows, Microsoft Office, Web and other graphical programs. In AutoCAD, Visual Basic is used to build user interfaces, workflows, and extensibility plugins. C# C# is a strongly typed, object-oriented programming language. Like Visual Basic, C# can be used to build user interfaces, workflows, and extensibility plugins.
