## FiRe-Ripper Crack + For PC

FiRe-Ripper is an easy-to-use audio ripper which allows you to extract the content of your audio CDs and convert it to MP3, WAV, OGG or WMA. The interface of the tool is plain and intuitive. A list of available tracks is automatically displayed upon program initialization. Here you can view the track number, start and end time, length and type of each track. So, all you have to do is specify the output format and destination, in order to proceed with the ripping process. Furthermore, you can modify audio settings for each aforementioned format when it comes to the bit rate, quality, attributes, channel mode and others. The audio processing tool requires a low-to-moderate amount of system resources, supports keyboard shortcuts and several skins for the interface, has a good response time, quickly finishes an encoding job and manages to keep a good sound quality. We haven't encountered any issues during our tests. On the other hand, there is no help file available and FiRe-Ripper doesn't come with any extraordinary features. But we recommend it to all users who are looking for a straightforward application, especially rookies. Getting Started with FiRe-Ripper: 1. Install the program (this is a standalone application and it doesn't require any installation as we mentioned in the pricing section) 2. Open the application 3. Click on the "Settings" button in the interface 4. You will see the following window: Figure 1: Settings Window 5. Click on the "Settings" button in the interface to go to the next step (see figure 2): Figure 2: Settings Window 6. In the "Settings" window, you can specify output format and destination, and modify audio processing settings. 7. Click on "Go" button (see figure 3): Figure 3: Go Button 8. Now go to the "Track" window (figure 4): Figure 4: Track Window 9. You can select tracks from the list and modify settings for each track (refer to figure 6). 10. Click "Open" to start the ripping process. 11. All the ripped tracks are displayed in the tracks window (figure 5). Figure 5: Tracks Window 12.
