“The new game engine in Fifa 22 Cracked 2022 Latest Version introduces new animations on impact and a new physical simulation layer that allows us to focus on animations of the attacking players and more specific collision detection,” says Andreas Michel, Executive Producer at EA Sports. “By creating a more realistic simulation of real-life collisions, we are able to maximize the excitement of your favorite player’s individual performance.”

**New Physics & Performance Improvements:**

- \* Players will be more responsive in faster-paced games
- \* Goalkeepers will punch shots towards the goal for the first time
- \* Finer contact physics: on-field players will be more sensitive to contact decisions and less likely to break off in uncontrolled directions
- \* New shot acceleration & pace physics: players will react to shots faster and shots will have more varied flight paths on goal kicks
- \* New players in motion: more fluid and varied animations on body parts like the head, knee, neck & arms
- \* Improved collision physics: players will be more influenced by the ball when the ball is away from them and a more realistic deceleration will be applied
- \* Lower collision accel of the head and upper body will change the outcome of tackles
- \* Player collisions will be more realistic and players will be more responsive to contacts
- \* Better free kicks, corners & throws will result in more accurate reactions
- \* Ball AI is more intelligent and unpredictable, allowing you to trick the
