Star Realms is an online, real-time tactical strategy game where a player takes control of a group of friendly vessels to compete with other players across the galaxy. Build your influence on thousands of systems, manage and upgrade your vessels, and conduct missions to gain new cards to support your fleet. Play two ways – online or offline. In offline mode you'll play the missions as the Star Realms Campaign, a true-to-the-franchise space opera where conflict is elevated to epic proportions. In online mode, you'll compete head-to-head or with a friend in online matches, with all the cards available in the Trade Deck for you to enhance your strategy and tactics to conquer your enemies. Key Features: • Action-packed space strategy • Built for multiplayer and deep strategy • A rich story featuring an evil Grand Alliance aligned against the Coalition of Planets

- Two ways to play - offline or online
- Play as a campaign or online in high-energy matches
- Play online to compete against friends or anonymous players
- Play multiple game modes, including versus AI, head-to-head, and 1v1
- Play now Star Realms - Frontiers Events contains: • 12 new Event cards available for play
- Face off against all the ships in the Star Realms Main Campaign, including all new and fan favorite ships from previous editions
- The original Star Realms ships and campaign available for download. Visit the official Star Realms website at: www.star-realms.com. Star Realms: Frontiers Events is licensed and trademarked to WizKids, Inc., a subsidiary of Hasbro, Inc. in the U.S.A. and other countries. Key Game Features: A whole new galaxy – The Star Realms campaign map features more than 16,000 star systems with an unprecedented focus on space exploration. The areas the Grand Alliance has access to will be a key part of the campaign and will continue to expand as each faction makes progress on their campaigns. A whole new galaxy – Star Realms is a space opera in which conflict is elevated to epic proportions. The factions, however, are not evenly matched. Rebels attempt to return galactic stability, while the Grand Alliance seeks to suppress and eventually eradicate them. Personal victory

The World of Star Realms - Frontiers Events: Coming in June 2019 is a new expansion pack to the award-winning, space-based trading game Star Realms. This pack introduces a "Frontiers" version of Star Realms, a new star system, and new Event cards in the form of League-exclusive chits. The Frontiers version of Star Realms is designed to be played online in campaigns against AI and in multiplayer matches against opponents worldwide. The Frontiers version provides new structures and more powerful units. It also includes more exotic cards to help players establish and lead powerful Frontiers factions, like those of the Pirate League or the Knights of the Cross. The new Planet system is a single-player adventure into the unexplored galaxy of Frontiers. In this epic story, you play the role of an intrepid explorer as you seek to uncover the secrets of Planet A, a world of mystery. If you complete the story, you are rewarded with a new Planet. With a new set of Event chits, the Frontiers version of Star Realms allows for complete changes to the game, and the new Planet system gives players an even greater sense of freedom in their games. Frontiers and Base Packs: As a new player, you can buy two levels of Frontiers packs. Leagues: The Frontiers version of Star Realms contains a new career system: Leagues. There are 5 Leagues. At the beginning of the season, you can randomly earn a League chit from the Event deck. You have a choice of 5 Leagues for 1 Tier of play. There are two kinds of Leagues: Tier 3 and Tier 4. If you're a Tier 3 League, you get the benefits of the Frontiers version of Star Realms AND a version of Star Realms featuring the original special Event cards, Planet System, and Autonomous Mode. If you're a Tier 4 League, you get the benefits of the Frontiers version of Star Realms AND a version of Star Realms featuring the original Base Packs, an updated Planet system, and the Autonomous Mode. After that initial League chit, you can earn chits by completing special Challenges or by winning in your League. Unranked/Ranked: In addition to the Tier, you can select Unranked or Ranked in the campaign. Unranked is for new players, and Ranked is for returning players. Planet: There are 20 new Planet chits in the Frontiers version of Star Realms. You d41b202975

We want to play with them some more to see what they can do. The new Units and Heroes that will be available are: Build your own Event Cards Send us

What's new in Star Realms - Frontiers Events:

Federation is coming up again as a class and this time they're coming for you! Change up your whole team to more do the job and fight the space trash! Instead of change up your units you decide to just add a planet or way to jump around to fix your struggle. You start out by dumping 1 of your number of planets on each other - their class may/may not mean anything - you decide. When you drop a planet it get's fixed in place and that grants you 2 cards. When they are fixed in place it means they are locked into position and can't be moved or changed. Even if you move planets they stay fixed to one spot and cannot be moved even if you have weapons! Each other planet that you make and put down only has to cover 4 points. All 6 planets will still be usable (no matter how many other planets you have). And in a word, thats it! That's all your ships are for when you make a planet. Each planet has a similar effect but their are some slight changes. So lets see what you can do to make some pretty important changes to increase your empire and you play the game again. You have 13 total planets, 3 are your starting planets. 2 and 3 are each assigned to your player. Your player number is the number of planets you start with. All planets cards are being placed face down and your player is not shown. So you could try and be sneaky and try to lock in a planet first with another player in the game. Keep track of your planets in order as they get fixed (not used) for you. Also know what your starting planets are. Once they are fixed in a spot they cannot be moved/changed. This means you have to place them in a position that has the least points covered by your opponent. (or help them by being a good friend). Once you hit the 13 planet mark you move to the next round. Round 1 has 4 rounds. My personal preference for the first round is Colonize and that is when I finish a bit before 4/5. Round 1 Impersonating: You choose the 4 worlds for each player. Also assigned to each player is a world to jump off of. You spin over this world and the effect takes place. Your opponent must use their same 4 worlds to find out and then take action against those 4 worlds to avoid any effects. Round 2: Impersonating: Each player has the effect of buildings, but you may
