iPhone. How can I do this? I googled for some tutorials. But no help. A: This MSDN article should help: At least the first part is definitely doable in iOS with the CNET.com library: That said, you would be better off looking at using a 3rd-party library like this, CNET.com, or perhaps even NSDictionary, but I suspect you want to parse out the information instead of just dump it as a text file. Alcohol abuse and dependence are common mental disorders (CMDs) with substantial personal, societal, and financial costs. One currently available behavioral intervention for reducing alcohol use is the Short-Term Alcohol Problems Reduction (STAR) program
