(News source: IGG)Q: Copy previous git commit to new branch I'm looking for a way to copy commit changes from my working branch to a new branch. I have my changes on a branch and want to make a branch that just duplicates the current state of my local changes in a single commit in the new branch. Something like: branch_created_from_new_branch ^ working branch ^ \ c How can I achieve this, from within my working branch? A: Assuming you are on branch branch_created_from_new_branch, and you have one or more commits already on branch_created_from_new_branch... ... in your working branch, run: git cherry-pick c (c is just an example commit name. Obviously, you'll want to use the name of a commit which you have already made to the other branch, but which has not been made yet to the new branch.) To resume by clicking on the branch you wish to pick from, run: git checkout -b branch_to_copied_from branch_created_from_new_branch Then you can re-create the new commits as usual. Thief Antagonist Description:

A warrior reborn has left her mark on the land. Using a sword in the name of justice, she embraced the violence common to warrior of her ilk and began a series of raids and murders, called by one name: "Thief." Enemy of the law, she steps into the shoes of the dead to take revenge on her mark. Unfortunately for her, the criminal hand of a group known as "the Thieves Guild" takes such matters into their own hands. The various members of this group, who resemble a criminal organization called the "Thieves Guild." wield the power of the blades that they swing, and betray each other like the robber-barons of legend.

The Thief recently fell into the hands of the Timeless Triad, a powerful organization of thieves and rogue warriors who serve as the former members and mavericks of "the Thieves Guild." The prestigious heroes of the Warrior Kingdom, called the Grand Triad, have taken notice of her unmatched skills, and their high authority has granted the young woman a place in their ranks. Donning a dark cape and abandoned hound as their symbol, the grand triad's warriors use their genius and fierce spirit to bring justice to the people.

After the War of the Ancients, three groups formed. The Elden, the Drow, and the Dragons. While the Elden and the Dragons were united under the guidance of the Church of the Silver Flame, the Drow attempted to usurp control of the lands. Neither of the two groups managed to overtake the other. In order to establish an era of peace, the Elder, Be'larin Ardetta, began to establish the Lands Between in the north of the Summerset Isles. The Lands Between, having been established, immediately attracted many people, and refugees from the war flocked to the new land. In order to build a flourishing town, the population gradually increased. However, after the disappearance of the Church of the Silver Flame, the order of things became disordered. The Elden, the Drow, and the Dragons turned into three cliques, and started to have conflicts with each other. This state of affairs has persisted for around 30 years. In the present, a rumor has spread that "an ancient enemy to the Elden, the Drow, and the Dragons has appeared on the lands, and that the enemy will soon make an attempt on the whole of the Lands Between." In this situation, the townsfolk have grown restless, and the Elden Lords who formed the four guilds have begun to work together. The players of the game, the followers of the Light, are in the midst of this turmoil. They are adventurers who will go to the Lands Between. Their objective is to bring about a new era in which the people of the Lands Between can live and prosper.
