(Have you ever been a victim of free robux scam?) First things first, be sure to check the Roblox forums before asking questions here, as almost every time someone answers, be sure to mention that you've looked before asking for help (this will also give you and others, time to read the question you posted). Problems Getting Robux After you've made sure you have the most recent version of the software, you'll probably need to wait for the servers to completely load (it's best to be patient, Roblox may seem frustrating, but patience will get you everywhere!). Once you've been redirected to your page, or if you're using a browser plugin, you'll see the "All Gold" button on your page. Make sure you have enough "All Gold" to make this work. There is no way to get "All Gold" in a single go, so you'll need to wait until you've gotten "All Gold" for at least 5 games, or until you've played a certain amount of games before getting started. What if I Have No Money? If you have 0 money on your account, and your download is complete, you might try disabling Adblock. If this doesn't work, you may need to use another browser plugin (I recommend uBlock Origin). When you're on the game, you'll see a page titled "Roblox." You'll notice you have Robux, but not "All Gold" on the page (this is because Robux can be used to purchase the "All Gold" badge, and it's also possible to ask Roblox to give you Robux, but you'll need to ask them to give you money). Open your profile, and go to your account page (you can do this by clicking the menu, or by pressing the "L" key on your keyboard). Under the "Account Status," there will be a link titled "Earn Free Robux." Once you have made at least one achievement, in addition to getting "All Gold," you can still get free robux. If you'd like to get more free robux,
